EDUCATION

CareerFoundry | Certificate in Full-Stack Web Development.
December 2020 - October 202.

Built a portfolio website from scratch. Created various projects such as myFlix, a responsive web application using MERN & MEAN Stacks. Developed the capability to write and run tests based on Test-driven Development strategies with the meetApp, an app assembled using Google Authorization and O2 Authorization. Programmed a chat app with React Native and Firebase.

Universidad Central de Venezuela | Postgraduate as Marketing Specialist | Pharmacist.
July 2005 - September 2015.

WEB DEVELOPMENT PROJECTS

As part of my projects as a student at CareerFoundry, I completed the following:

PORTFOLIO WEBSITE | HTML, CSS, and JavaScript.

Designed and built a responsive, single-page portfolio website from scratch using HTML, CSS, and JavaScript to showcase my projects. https://optimistic-hawking-73b4b0.netlify.app

MYFLIX & MYFLIX API | Full-Stack project | Front-end: Angular & React |Back-end: Express, MongoDB, Node.

Programmed a single-page application using MERN and MEAN stacks to allow movie enthusiasts to access information about different movies. https://confident-babbage-994a9f.netlify.app/

POKÉDEX APP| Simple Web app| JS, HTML, CSS, AJAX.

Made with JavaScript, HTML, CSS, and jQuery, it loads Pokémon's data from an external API using asynchronous functions to view data points in detail. https://agusniko.github.io/my-first-and-simple-js-app/

MEET APP | Serverless progressive web application.

Developed with React following Test-driven Development approach and Behavior-driven Development strategies, Google Authorization, and O2 Authorization to view a list of upcoming events in a specific location. https://agusniko.github.io/meet-app/

CHAT APP | React-Native app with Firebase.

Created a WhatsApp-like chat app from scratch with React-Native and used Firebase to store messages. The app provides users with a chat interface and options to share images and their location.

WORK EXPERIENCE

Kitchen Assistant and Service. | Pico de Gallo & SGG.

Germany April 2018 - November 2019.

- Undertook food preparation tasks and guaranteed client satisfaction. Worked synchronized with the stack while Multitasked preparing orders and serving clients. Improved the efficiency by reducing the delivery time by 15%
- Promoted a campaign among the customer to let reviews on social media implementing a system of rewards. Results increased social media engagement.

R&D Biotechnological Products. | Solena Group.

México January 2016 - November 2017.

- Fabricated agriculture products out of shrimp waste. Researched and designed adequate methods to digest the proteins and extract valuable components for crops. It resulted in the development of two new products plus the reuse of one ton of organic waste a month; sales increased by 5%.

Regulatory Affairs Coordinator. | Tecnomed J. Trapp & Nature's Sunshine.

Venezuela February 2013 - December 2015.

- Coordinated registration of the products. I created a database to track the expiration date of the products, requirements, and critical points. Communicated effectively with international suppliers to obtain the documentation fast. Guaranteed the live cycle of a portfolio of more than fifty products.
- Implemented a database that supported us in classifying products according to their ingredients. Results reduce the classification time by 20%.

Pharmacist | Farmatodo Drugstore.

Venezuela April 2011 - January 2013.

- Managed the department of Pharmacy. Assigned tasks to the staff according to their strengths, focused on guaranteeing customer satisfaction, offered alternatives when needed, paid attention to details by exhibiting products, and keeping the shelves stocked and clean. Results reached the sales and losses targets for the first time in four years.
